

Opportunities in Science Policy

Enhance policy while transforming your career.

Join us for a conversation to learn about AAAS Science & Technology Policy Fellowships and how you can contribute to public service, while developing valuable career-enhancing skills.

You'll learn:

What are the AAAS S&T Policy Fellowships?

A unique public service and professional development opportunity for doctoral level scientists and engineers* at all career stages to address today's complex societal challenges.

Where do fellows work?

Fellows serve in assignments in all three branches of the federal government in Washington, D.C.

How will a policy fellowship enhance my career?

Many alumni STPF fellows utilize their program experience to broaden their career skills, develop an extensive network of contacts and pursue careers in a variety of fields.

* applicants with a MS in engineering and three years of professional experience are also eligible to apply.
